#### PREFACE

This volume is issued by the North Carolina Legislative Reference Library in order to furnish in succinct form information about the State, its government and institutions, which otherwise would require much investigation in many different sources. Unless otherwise stated, the data in each case is the latest available.

Similar manuals were issued by the Secretary of State in 1903, 1905, and 1907, and by the North Carolina Historical Commission in 1909, 1911, 1913, 1915, 1917, 1919, 1921, 1923, 1925, 1927, 1929 and by the Legislative Reference Library in 1931, 1933, and 1935. The demand for these volumes has been so great that all editions except those of 1935 have been exhausted.

The cut in the appropriations for printing, as a result of the general condition of State finances, has compelled a sharp reduction in the size and scope of editions of the Manual in recent years.

- 7. All committees shall be appointed by the Speaker, unless otherwise specially ordered by the House.
- 8. In all elections the Speaker may vote. In all other cases he may exercise his right to vote, or he may reserve this right until there is a tie; but in no case shall he be allowed to vote twice on the same question.

57. The previous question shall be as follows: "Shall the main question be now put?" and, until it is decided, shall preclude all amendments and debate. If this question shall be decided in the affirmative, the "main question" shall be on the passage of the bill, resolution, or other matter under consideration; but when amendments are pending, the question shall be taken upon such amendments, in inverse order, without further debate or amendment. If such question be decided in the negative, the main question shall be considered as remaining under debate: Provided. that no one shall move the previous question except the member submitting the report on the bill or other matter under consideration, and the member introducing the bill or other matter under consideration, or the member in charge of the measure, who shall be designated by the chairman of the committee reporting the same to the House at the time the bill or other matter under consideration is reported to the House or taken up for consideration.

When the previous question is called, all motions below it fall, unless made prior to the call, and all motions above it fall after its second by a majority required. Pending the second, the motions to adjourn and lay on the table are in order, but not after a second. When in order and every motion is before the House, the question stands as follows:

Previous question.
Adjourn.
Lay on the table.
Postpone indefinitely.
Postpone definitely.
To commit.
Amendment to amendment.
Amendment.
Substitute.
Bill.

The previous question covers all other motions when seconded by a majority of the House, and proceeds by regular graduation to the main question, without debate, amendment, or motion, until such question is reached or disposed of.

- 63. The chairman and five other members of any committee shall constitute a quorum of said committee for the transaction of business.

- 65. When a bill shall be reported by a committee with a recommendation that it be not passed, but accompanied by a minority report, the question before the House shall be "The adoption of the minority report," and if failing to be adopted by a majority vote, the bill shall be placed upon the unfavorable calendar. Such minority report shall be signed by at least three members of the committee who were present when the bill was considered in committee: Provided, however, that where a minority report is filed the proponents and opponents of the question presented thereby shall be allowed not to exceed ten minutes on each side to explain the question; Provided further, that by a majority vote the time may be extended for a discussion of the minority report and on the merits of the bill. In the event there is an unfavorable report with no minority report accompanying it, the bill shall be placed upon the unfavorable calendar. To take a bill from the unfavorable calendar, a two-thirds vote shall be necessary.
- 65a. A bill from the unfavorable calendar shall not be debatable, but the movant may make a brief and concise statement of the reasons for the motion before making the motion, taking not more than five minutes.

A sufficient number of the printed copies for the use of the committee to which the bill is referred shall be by the Chief Page delivered to the chairman or clerk of that committee. If the bill is passed, the remaining copies shall be by the Chief Page delivered to the Principal Clerk of the Senate for the use of the Senate. The cost of printing shall be paid from the contingent fund of the House of Representatives. The Chairman of the Rules Committee of the House and the Chairman of the Rules Committee of the Senate shall appoint a sub-committee consisting of two members of the Senate from the body of the House and Senate, and such chairmen shall notify the Principal Clerk of the House and of the Senate who has been so appointed. Such sub-committee shall meet daily and examine the carbon copies of the public bills introduced and determine which of such public bills shall be printed and which shall not, and stamp the copies accordingly. Such sub-committee shall serve for one week unless for good cause the chairmen of the respective rules committees shall determine otherwise. If the member introducing a public bill, which the committee shall determine should not be printed, so desires, he may appear before the committee at the next meeting thereof with reference thereto.

67. Whenever any resolution or bill is introduced a carbon copy thereof shall be attached thereto, and the Principal Clerk shall cause said carbon copy to be numbered as the original resolution or bill is numbered, and shall cause the same to be available at all times to the member introducing the same. # THE NORTH CAROLINA RURAL ELECTRIFICATION AUTHORITY

- Chapter 288, P. L. 1935

Composition—Six members.

Personnel—Dudley W. Bagley, Chairman, Moyock; Dr. Jane S. McKimmon, Raleigh; W. Kerr Scott, Haw River; Dr. S. H. Hobbs, Jr., Chapel Hill; J. L. Horne, Jr., Rocky Mount; George M. Stephens, Asheville.

Appointment—By Governor.

Terms—Two members two years, two for four years and two for six years.

Compensation—Chairman, \$4,000; members board, expenses only.

The Rural Electrification Authority was created for the purpose of promoting and encouraging the fullest possible use of electric energy in the rural areas of the State. The Authority does not build nor finance the construction of power lines, confining its efforts to the coördination of existing facilities to accomplish its purposes. In general, investigations are made, communities are assisted in organizing, negotiations are made with power companies, the Federal Government and municipalities for the extension of distribution lines for and on behalf of the rural communities that desire service.

The Electric Membership Corporation Act provides for the formation of non-profit membership corporations. Applications for loans from the United States Government are made through the State Authority and not direct to the United States Agency.

When the North Carolina Rural Electrification Authority began to function on July 1, 1935, about 3 per cent of the farms in the State were receiving central station service. The December 1936 report showed an additional 5,250 miles of power lines had been built, under construction or authorized to be built at an estimated cost of \$5,521,280.00 and the percentage of electrified farms rose to about 12 per cent.

# NORTH CAROLINA RURAL REHABILITATION CORPORATION

The Rural Rehabilitation program was inaugurated in April, 1934, as a division of the North Carolina Emergency Relief Administration, for the purpose of making it possible for worthy destitute farm families eligible for relief to become self-supporting and as far as possible own their farms. The Corporation was organized as the business agency to transact all business and legal matters of the program. A standard form for a corporation set-up was issued by the Rural Rehabilitation Division of the Federal Emergency Relief Administration for information and guidance of the State Emergency Relief Administration. Following this authorized form, the corporation was set up as a non-par value stock company with control resting in the Board of Directors, a majority of whom were officials of the State Emergency Relief Administration. By direction of the Federal Emergency Relief Administration, the Board of Directors included ranking officials of the designated cooperating Federal and State agencies.

County Clinics are held for the refraction of needy school children and adults, and operations are performed where such operations will improve, restore or conserve vision. The Commission maintains a register of the blind in the State, which at present includes the names and addresses of 5,430 blind persons and gives pertinent information regarding each of the persons registered.

The office of the Commissioner of Paroles acts in an advisory capacity: investigating and recommending to the Governor those prisoners who merit either parole or executive elemency.

Under the direction of the Governor, the office of the Commissioner of Paroles, through its supervisors, coöperates with local officials in the supervision of all paroled prisoners. The 100 Welfare Officers of the State are by law the local supervision agents.

The Governor has assigned to the Commissioner of Paroles the further duty of investigating the cases of all prisoners under sentence of death.

The Governor and the Commissioner of Paroles have caused to be set up a file for every felon confined in the State prison system and their cases are heard regardless of whether or not any one appears in their behalf. In addition to this, arrangement has been made, through the coöperation of the penal division of the State Highway and public Works Commission, to furnish information on misdemeanants who might be worthy of parole.

The Parole Office is gathering information and statistics for a study of crime and also for the purpose of aiding the United States Department of Justice in the Attorney General's Survey of Release Methods, a nation-wide survey of parole practices.

The North Carolina Parole System has been progressing rapidly under its policy of cooperation with the Courts and law enforcement, welfare and penal agencies.

The Parole Office not only studies cases with a view to parole, but actively supports the Penal Division in an effort to rehabilitate a penal population ranging between nine and ten thousand.

vision; Mrs. May Thompson Evans, Raleigh, director State Employment Service Division.

The North Carolina Unemployment Compensation Commission was created by the North Carolina Unemployment Compensation Act, enacted by the special session of the General Assembly in December, 1936, called for that purpose to meet the requirements of Titles III and IX of the National Social Security Act, as amended. The State Act provided for a commission of three members to administer the law, through two divisions, the Unemployment Compensation Division and the State Employment Service Division, the latter of which had been created by Chapter 106, Public Laws of 1935. All administrative costs of the commission are paid by the Federal Government, on requisition of the commission, after the schedule of expenditures is approved by the Social Security Board.

The commission, through its Unemployment Compensation Division, is charged with the collection from employers coming under the Act nine-tenths of one per cent in 1936, one and eight-tenths per cent in 1937 and two and seven-tenths per cent in 1938 and thereafter on the payrolls of the employers. These contributions go into a special fund and create a reserve from which workers who become unemployed through no fault of their own and after January 1, 1938, are paid at the rate of one-half of their normal wages, but not to exceed \$15 a week nor less than \$5 a week, or three-fourths of his full-time weekly wage, whichever is lesser. The unemployed worker cannot draw benefits for more than 16 weeks in a benefit year. The division is required to secure from the State's 9,000 employers and keep a complete record of the approximately 400,000 workers in the State, in order to make the payments of benefits properly.

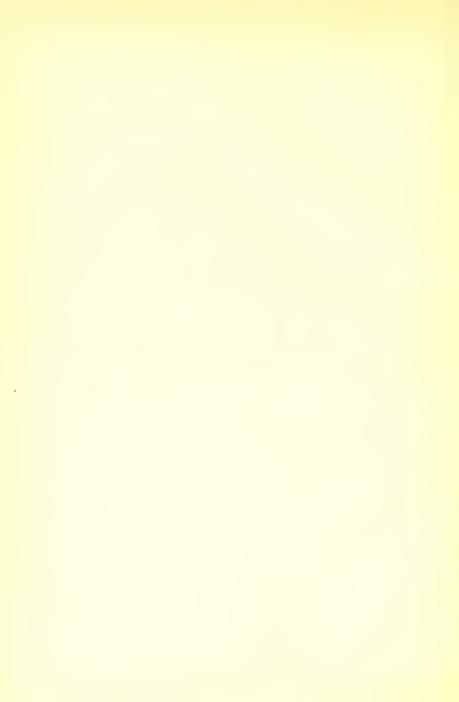

The State Employment Service Division, already in operation, was taken over by the commission, and its operations enlarged and extended. This division maintains employment offices throughout the State and seeks to find work for the unemployed, who, while drawing benefits are required to report regularly to these employment offices in efforts to find suitable work.

The commission is charged with the task of trying to stabilize employment and thus preventing the financial, economic and moral ills that follow enforced idleness of workers in the State. It is also required to make a study of unemployment, its causes and results, and to strive to present methods of reducing this hazard in reports to the Governor and the General Assembly.

# PLATFORMS AND POLITICAL PARTIES, 1936

# PART III

- 1. Democratic National Platform.
- 2. REPUBLICAN NATIONAL PLATFORM.
- 3. STATE DEMOCRATIC PLATFORM.
- 4. STATE REPUBLICAN PLATFORM.

# DEMOCRATIC NATIONAL PLATFORM

Convention Hall, Philadelphia, June 25.—(AP)—The text of the Democratic national platform follows:

We hold this truth to be self-evident—that the test of a representative government is its ability to promote the safety and happiness of the people.

We hold this truth to be self-evident—that 12 years of Republican leadership left our nation sorely stricken in body, mind and spirit; and that three years of Democratic leadership have put it back on the road to restored health and prosperity.

We hold this truth to be self-evident—that 12 years of Republican surrender to the dictatorship of a privileged few have been supplanted by a Democratic leadership which has returned the people themselves to the places of authority, and has revived in them new faith and restored the hope which they had almost lost.

We hold this truth to be self-evident—that this three-year recovery in all the basic values of life and the re-establishment of the American way of living has been brought about by humanizing the policies of the Federal Government as they affect the personal, financial, industrial and agricultural well-being of the American people.

#### Its Obligations

We hold this truth to be self-evident—that government in a modern civilization has certain inescapable obligations to its citizens, among which are:

- (1) Protection of the family and the home.
- (2) Establishment of a democracy of opportunity for all the people.
  - (3) Aid to those overtaken by disaster.

These obligations, neglected through 12 years of the old leadership, once more have been recognized by American government. Under the new leadership they will never be neglected.

FOR THE PROTECTION OF THE FAMILY AND THE HOME

(1) We have begun and shall continue the successful drive to rid our land of kidnappers and bandits. We shall continue to use the powers of government to end the activities of the malefactors of great wealth who defraud and exploit the people.

#### SAVINGS AND INVESTMENTS

(2) We have safeguarded the thrift of our citizens by restraining those who would gamble with other people's savings, by requiring truth in the sale of securities; by putting the brakes upon the use of credit for speculation; by outlawing the manipulation of prices in stock and commodity markets; by curbing the overweening power and unholy practices of utility holding companies; by insuring fifty million bank accounts.

#### OLD-AGE AND SOCIAL SECURITY

(3) We have built foundations for the security of those who are faced with the hazards of unemployment and old age; for the orphaned, the crippled and the blind. On the foundation of the Social Security Act we are determined to erect a structure of economic security for all our people, making sure that this benefit shall keep step with the ever-increasing capacity of America to provide a high standard of living for all its citizens.

#### Consumer

(4) We will act to secure to the consumer fair value, honest sales and a decreased spread between the price he pays and the price the producer receives.

#### RURAL ELECTRIFICATION

(5) This administration has fostered power rate yardsticks in the Tennessee Valley and in several other parts of the nation. As a result electricity has been made available to the people at a lower rate. We will continue to promote plans for rural electrification and for cheaper power by means of the yardstick method.

#### Housing

(6) We maintain that our people are entitled to decent, adequate housing at a price which they can afford. In the last three years the Federal government, having saved more than two million homes from foreclosure, has taken the first steps in our history to provide decent housing for people of meagre incomes. We believe every encouragement should be given to the building of new homes by

private enterprise; and that the government should steadily extend its housing program toward the goal of adequate housing for those forced through economic necessities to live in unhealthy and slum conditions.

#### VETERANS

(7) We shall continue just treatment to our war veterans and their dependents.

For the establishment of a democracy of opportunity:

#### AGRICULTURE

We have taken the farmers off the road to ruin.

We have kept our pledge to agriculture to use all available means to raise farm income toward its pre-war purchasing power. The farmer no longer is suffering from 15-cent corn, three-cent hogs, two and one-half-cent beef at the farm, five-cent wool, 30-cent wheat, five-cent cotton and three-cent sugar.

By Federal legislation we have reduced the farmers' indebtedness and doubled his net income. In cooperation with the states and through the farmers' own committees, we are restoring the fertility of his land and checking the erosion of his soil. We are bringing electricity and good roads to his home.

We will continue to improve the soil conservation and domestic allotment program with payments to farmers.

We will continue a fair-minded administration of agricultural laws, quick to recognize and meet new problems and conditions. We recognize the gravity of the evils of farm tenancy, and whe pledge the full coöperation of the government in the refinancing of farm indebtedness at the lowest possible rates of interest and over a long term of years.

We favor the production of all the market will absorb, both at home and abroad plus a reserve supply sufficient to insure fair prices to consumers; we favor judicious commodity loans on seasonal surpluses; and we favor assistance within Federal authority to enable farmers to adjust and balance production with demand, at a fair profit to the farmers.

We favor encouragement of sound, practical farm cooperatives.

By the purchase and retirement of ten million acres of submarginal land, and assistance to those attempting to eke out an exist-

ence upon it, we have made a good beginning toward proper land use and rural rehabilitation.

The farmer has been returned to the road to freedom and prosperity. We will keep him on that road.

#### LABOR

We have given the army of America's industrial workers something more substantial than the Republican's dinner pail full of promises. We have increased the worker's pay and shortened his hours; we have undertaken to put an end to the sweated labor of his wife and children; we have written into the law of the land his right to collective bargaining and self-organization free from the interference of employers; we have provided Federal machinery for the peaceful settlement of labor disputes.

We will continue to protect the worker and we will guard his rights, both as wage-earner and consumer, in the production and consumption of all commodities including coal and water power and other natural resource products.

The worker has been returned to the road to freedom and prosperity. We will keep him on that road.

We have taken the American business man out of the red. We have saved his bank and given it a sounder foundation; we have extended credit; we have lowered interest rates; we have undertaken to free him from the rayages of cut-throat competition.

#### YOUTH

We have aided youth to stay in school; given them constructive occupation; opened the door to opportunity which 12 years of Republican neglect had closed.

Our youth have been returned to the road to freedom and prosperity. We will keep them on that road.

#### Monopoly and Concentration of Economic Power

Monopolies and the concentration of economic power, the creation of Republican rule and privilege, continue to be the master of the producer, the exploiter of the consumer, and the enemy of the independent operator. This is a problem challenging the unceasing effort of untrammeled public officials in every branch of the gov-

ernment. We pledge vigorously and fearlessly to enforce the criminal and civil provisions of the existing anti-trust laws, and to the extent that their effectiveness has been weakened by new corporate devices or judicial construction, we propose to restore their efficiency in stamping out monopolistic practices and the concentration of economic power.

# AID TO THOSE OVERTAKEN BY DISASTER

We have aided and will continue to aid those who have been visited by widespread drought and floods and have adopted a nation-wide flood-control policy.

#### UNEMPLOYMENT

We believe that unemployment is a national problem, and that it is an inescapable obligation of our government to meet it in a national way due to our stimulation of private business, more than five million people have been reëmployed; and we shall continue to maintain that first objective of a program of economic security is maximum employment in private industry at adequate wages. Where business fails to supply such employment, we believe that work at prevailing wages should be provided in coöperation with state and local governments on useful public projects, to the end that the national wealth may be increased, the skill and energy of the worker may be utilized, his morale maintained, and the unemployed assured the opportunity to earn the necessities of life.

#### THE CONSTITUTION

The Republican platform proposes to meet many pressing national problems solely by action of the separate states. We know that drought, dust storms, floods, minimum wages, maximum hours, child labor and working conditions in industry, monopolistic and unfair business practices cannot be adequately handled exclusively by 48 separate state legislatures, 48 separate state administrations and 48 separate state courts. Transactions and activities which inevitably overflow state boundaries call for both state and Federal treatment.

We have sought and will continue to seek to meet these problems through legislation within the Constitution.

If these problems cannot be effectively solved by legislation within the Constitution, we shall seek clarifying amendment as will assure to the legislatures of the several states and to the Congress of the United States, each within its proper jurisdiction, the power to enact those laws which the state and Federal legislatures, within their respective spheres, shall find necessary, in order adequately to regulate commerce, protect public health and safety and safeguard economic security. Thus we propose to maintain the letter and spirit of the Constitution.

#### THE MERIT SYSTEM IN GOVERNMENT

For the protection of government itself and promotion of its efficiency we pledge the immediate expansion of the merit system through the classified civil service—which was first established and fostered under Democratic auspices—to all non-policy-making positions in the Federal service.

We shall subject to the civil service law all continuing positions which, because of the emergency, have been exempt from its operation.

#### CIVIL LIBERTIES

We shall continue to guard the freedom of speech, press, radio, religion and assembly which our constitution guarantees; with equal rights to all and special privileges to none.

#### GOVERNMENT FINANCE

The administration has stopped deflation, restored values and enabled business to go ahead with confidence.

When national income shrinks, government income is imperiled. In reviving national income, we have fortified government finance. We have raised the public credit to a position of unsurpassed security. The interest rate on government bonds has been reduced to the lowest point in 28 years. The same government bonds which in 1932 sold under 83 are now selling over 104.

We approve the objective of a permanently sound currency so stabilized as to prevent the former wide fluctuations in value which injured in turn producers, debtors, and property owners on the one hand, and wage-earners and creditors on the other, a currency which will permit full utilization of the country's resources. We assert that today we have the soundest currency in the world.

We are determined to reduce the expenses of government. We are being aided therein by the recession in unemployment. As the

requirements of relief decline and national income advances, an increasing percentage of Federal expenditures can and will be met from current revenues, secured from taxes levied in accordance with ability to pay. Our retrenchment, tax and recovery programs thus reflect our firm determination to achieve a balanced budget and the reduction of the national debt at the earliest possible moment.

#### Foreign Policy

In our relationship with other nations, this government will continue to extend the policy of good neighbor. We reaffirm our opposition to war as an instrument of national policy, and declare that disputes between nations should be settled by peaceful means. We shall continue to observe a true neutrality in the disputes of others; to be prepared, resolutely to resist aggression against ourselves; to work for peace and to take the profits out of war; to guard against being drawn, by political commitments, international banking or private trading, into any war which may develop anywhere.

We shall continue to foster the increase in our foreign trade which has been achieved by this administration; to seek by mutual agreement the lowering of those tariff barriers, quotas and embargoes which have been raised against our exports of agricultural and industrial products; but continue as in the past to give adequate protection to our farmers and manufacturers against unfair competition or the dumping on our shores of commodities and goods produced abroad by cheap labor or subsidized by foreign governments.

The issue in this election is plain. The American people are called upon to choose between a Republican administration that has and would again regiment them in the service of privileged groups and a Democratic administration dedicated to the establishment of equal economic opportunity for all our people.

We have faith in the destiny of our nation. We are sufficiently endowed with natural resources and with productive capacity to provide for all a quality of life that meets the standards of real Americanism.

Dedicated to a government of liberal American principles, we are determined to oppose equally, the despotism of Communism and the menage of concealed Fascism.

We hold this final truth to be self-evident—that the interests, the security and the happiness of the people of the United States of America can be perpetuated only under Democratic government as conceived by the founders of our nation.

# 1936 REPUBLICAN NATIONAL PLATFORM

Cleveland, June 11.—(AP)—The text of the Republican platform follows:

THE PLATFORM OF THE REPUBLICAN PARTY, 1936

America is in peril. The welfare of American men and women and the future of our youth are at stake. We dedicate ourselves to the preservation of their political liberty, their individual opportunity and their character as free citizens, which today for the first time, are threatened by Government itself.

For three long years the New Deal administration has dishonored American traditions and flagrantly betrayed the pledges upon which the Democratic party sought and received public support.

The powers of Congress have been usurped by the President.

The integrity and authority of the Supreme Court have been flaunted.

The rights and liberties of American citizens have been violated. Regulated monopoly has displaced free enterprise.

The New Deal administration constantly seeks to usurp the rights reserved to the states and to the people.

It has insisted on the passage of laws contrary to the Constitution.

It has intimidated witnesses and interfered with the right of petition.

It has dishonored our country by repudiating its most sacred obligations.

It has been guilty of frightful waste and extravagance, using public funds for partisan political purposes.

It has promoted investigations to harass and intimidate American citizens, at the same time denying investigations into its own improper expenditures.

It has created a vast multitude of new offices, filled them with its favorites, set up a centralized bureaucracy, and sent out swarms of inspectors to harass our people.

It has bred fear and hesitation in commerce and industry, thus discouraging new enterprises, preventing employment and prolonging the depression.

It secretly has made tariff agreements with our foreign competitors, flooding our markets with foreign commodities.

It has coerced and intimidated voters by withholding relief to those opposing its tyrannical policies.

It has destroyed the morale of many of our people and made them dependent upon government.

Appeals to passion and class prejudice have replaced reason and tolerance.

To a free people, these actions are insufferable. This campaign can not be waged on the traditional differences between the Republican and Democratic parties. The responsibility of this election transcends all previous political divisions. We invite all Americans irrespective of party, to join us in defense of American institutions

### CONSTITUTIONAL GOVERNMENT AND FREE ENTERPRISE

We pledge ourselves:

- (1) To maintain the American system of constitutional and local self-government, and to resist all attempts to impair the authority of the Supreme Court of the United States, the final protector of the rights of our citizens against the arbitrary encroachments of the legislative and executive branches of government. There can be no individual liberty without an independent judiciary.
- (2) To preserve the American system of free enterprise, private competition, and equality of opportunity, and to seek its constant betterment in the interest of all.

#### RE-EMPLOYMENT

The only permanent solution of the unemployment problem is the absorption of the unemployed by industry and agriculture, to that end, we advocate:

Removal of restrictions on production.

Abandonment of all New Deal policies that raise production costs, of living, and thereby restrict buying, reduce volume and prevent reëmployment.

Encouragement instead of hindrance to legitimate business.

Withdrawal of Government from competition with private payrolls.

Elimination of unnecessary and hampering regulations.

Adoption of such other policies as will furnish a chance for individual enterprise, industrial expansion, and the restoration of jobs.

#### Relief

The necessities of life must be provided for the needy, and hope must be restored pending recovery. The administration of relief is a major failure of the New Deal. It has been faithless to those who most deserve our sympathy. To end confusion, partisanship, waste and incompetence, we pledge:

- (1) The return of responsibility for relief administration to non-political local agencies familiar with community problems.
- (2) Federal grants-in-aid to the states and territories while the need exists, upon compliance with these conditions: (a) A fair proportion of the total relief burden to be provided from the revenues of states and local governments; (b) all engaged in relief administration to be selected on the basis of merit and fitness; (c) adequate provision to be made for the encouragement of those persons who are trying to become self-supporting.
- (3) Undertaking of Federal public works only on their merits and separate from the administration of relief.
- (4) A prompt determination of the facts concerning relief and unemployment.

#### SECURITY

Real security will be possible only when our productive capacity is sufficient to furnish a decent standard of living for all American families and to provide a surplus for future needs and contingencies. For the attainment of that ultimate objective, we look to the energy, self-reliance and character of our people, and to our system of free enterprise.

Society has an obligation to promote the security of the people, by affording some measure of protection against involuntary unemployment and dependency in old age. The New Deal policies, while purporting to provide social security, have, in fact, endangered it.

We propose a system of old-age security, based upon the following principles:

- (1) We approve a pay-as-you-go policy, which requires of each generation the support of the aged and the determination of what is just and adequate.
- (2) Every American citizen over 65 should receive the supplementary payment necessary to provide a minimum income sufficient to protect him or her from want.
- (3) Each state and territory, upon complying with simple and general minimum standards should receive from the Federal Government a graduation contribution in proportion to its own, up to a fixed maximum.
- (4) To make this program consistent with sound fiscal policy the Federal revenues for this purpose must be provided from the proceeds of a direct tax widely distributed. All will be benefitted and all should contribute.

We propose to encourage adoption by the states and territories of honest and practical measures for meeting the problems of unemployment insurance.

The unemployment insurance and old-age annuity sections of the present Social Security Act are unworkable and deny benefits to about two-thirds of our adult population, including professional men and women and all those engaged in agriculture and domestic service, and the self-employed while imposing heavy tax burdens upon all. The so-called reserve fund estimated at forty-seven billion dollars for old-age insurance is no reserve at all, because the fund will contain nothing but the government's promise to pay, while the taxes collected in the guise of premiums will be wasted by the government in reckless and extravagant political schemes.

#### LABOR

The welfare of labor rests upon increased production and the prevention of exploitation. We pledge ourselves to:

Protect the right of labor to organize and to bargain collectively through representatives of its own choosing without interference from any source.

Prevent governmental job holders from exercising autocratic powers over labor.

Support the adoption of state and interstate compacts to abolish sweat shops and child labor, and to protect women and children

with respect to maximum hours, minimum wages and working conditions. We believe that this can be done within the Constitution as it now stands.

#### AGRICULTURE

The farm problem is an economic and social, not a partisan problem, and we propose to treat it accordingly. Following the wreck of the restrictive and coercive AAA, the New Deal administration has taken to itself the principles of the Republican policy of soil conservation and land retirement. This action opens the way for a non-political and permanent solution. Such a solution cannot be had under a New Deal administration which misuses the program to serve partisan ends, to promote scarcity and to limit by coercive methods the farmer's control over his own farm.

Our paramount object is to protect and foster the family type of farm, traditional in American life, and to promote policies which will bring about an adjustment of agriculture to meet the needs of domestic and foreign markets. As an emergency measure, during the agricultural depression, Federal benefit payments or grants-in-aid when administered within the means of the Federal Government are consistent with a balanced budget.

# We propose:

- (1) To facilitate economical production and increased consumption on a basis of abundance instead of scarcity.
- (2) A national land-use program, including the acquisition of abandoned and non-productive farm lands by voluntary sale or lease, subject to approval of the legislative and executive branches of the states concerned, and the devotion of such land to appropriate public use, such as watershed protection and flood prevention, reforestation, recreation and conservation of wild life.
- (3) That an agricultural policy be pursued for the protection and restoration of the land resources, designed to bring about such a balance between soil-building and soil-depleting crops as will permanently insure productivity, with reasonable benefits to coöperating farmers on family-type farms, but so regulated as to eliminate the New Deal's destructive policy towards the dairy and livestock industries.
- (4) To extend experimental aid to farmers developing new crops suited to our soil and climate.

- (5) To promote the industrial use of farm products by applied science.
- (6) To protect the American farmer against the importation of all livestock, dairy and agricultural products, substitutes therefor, and derivatives therefrom, which will depress American farm prices.
- (7) To provide effective quarantine against imported livestock, dairy and other farm products from countries which do not impose health and sanitary regulations fully equal to those required of our own producers.
- (8) To provide for ample farm credit at rates as low as those enjoyed by other industries, including commodity and livestock loans, and preference in land loans to the farmer acquiring or refinancing a farm as a home.
- (9) To provide for decentralized, non-partisan control of the farm credit administration and the election by national farm loan associations of at least one-half of each board of directors of the Federal Land banks, and thereby remove these institutions from politics.
- (10) To provide in the case of agricultural products of which there are exportable surpluses, the payment of reasonable, benefits upon the domestically-consumed portion of such crops in order to make the tariff effective. These payments are to be limited to the production level of the family type farm.
  - (11) To encourage and further develop coöperative marketing.
- (12) To furnish government assistance in disposing of surpluses in foreign trade by bargaining for foreign markets selectively by countries, both as to exports and imports. We strenuously oppose so-called reciprocal treaties which trade off the American farmer.
- (13) To give every reasonable assistance to producers in areas suffering from temporary disaster, so that they may regain and maintain a self-supporting status.

#### TARIFF

Nearly 60 per cent of all imports into the United States are now free of duty. The other 40 per cent of imports compete directly with the product of our industry. We would keep on the free list all products not grown or produced in the United States in commercial quantities. As to all commodities that commercially compete directly with the product of our industry. We would keep on

the free list all products not grown or produced in the United States in commercial quantities. As to all commodities that commercially compete with our farms, our forests, our mines, our fisheries, our oil wells, our labor and our industries, sufficient protection should be maintained at all times to defend the American farmer and the American wage-earner from the destructive competition emanating from the subsidies of foreign governments and the imports from low-wage and depreciated-currency countries.

We will repeal the present reciprocal trade agreement law. It is futile and dangerous. Its effect on agriculture and industry has been destructive. Its continuation would work to the detriment of the wage-earner and the farmer.

We will restore the principle of the flexible tariff in order to meet changing economic conditions here and abroad and broaden by careful definition the powers of the Tariff Commission in order to extend this policy along non-partisan lines.

We will adjust tariffs with a view of promoting international trade, the stabilization of currencies, and the attainment of a proper balance between agriculture and industry.

We condemn the secret negotiation of reciprocal trade treatics without public hearing or legislative approval.

#### Monopolies

A private monopoly is indefensible and intolerable. It menaces and, if continued, will utterly destroy constitutional government and the liberty of the citizen.

We favor the vigorous enforcement of the criminal laws, as well as the civil laws, against monopolies and trusts and their officials, and we demand the enactment of such additional legislation as is necessary to make it impossible for the private monopoly to exist in the United States.

We will employ the full powers of the government to the end that monopoly shall be eliminated and that free enterprise shall be fully restored and maintained.

#### REGULATION OF BUSINESS

We recognize the existence of a field within which governmental regulation is desirable and salutory. The anthority to regulate should be vested in an independent tribunal acting under clear and specific laws establishing definite standards. Their determinations on law and facts should be subject to review by the courts. We favor Federal regulation, within the Constitution, of the marketing of securities to protect investors. We favor also Federal regulation of the interstate activities of public utilities.

#### CIVIL SERVICE

Under the New Deal, official authority has been given to inexperienced and incompetent persons. The Civil Service has been sacrificed to create a national political machine. As a result the Federal Government has never presented such a picture of confusion and inefficiency.

We pladge ourselves to the merit system, virtually destroyed by New Deal spoilsmen. It should be restored, improved and extended.

We will provide such conditions as offer an attractive permanent career in government service to young men and women of ability, irrespective of party affiliations.

#### GOVERNMENT FINANCE

The New Deal administration has been characterized by shameful waste, and general financial irresponsibility. It has piled deficit upon deficit. It threatens national bankruptcy and the destruction through inflation of insurance policies and saving bank deposits.

We pledge ourselves to:

Stop the folly of uncontrolled spending.

Balance the budget—not by increasing taxes but by cutting expenditures, drastically and immediately.

Revise the Federal tax system and coördinate it with State and local tax systems.

Use the taxing power for raising revenue and not for punitive or political purposes.

### MONEY AND BANKING

We advocate a sound currency to be preserved at all hazards.

The first requisite to a sound and stable currency is a balanced budget.

We oppose further devaluation of the dollar.

We will restore to the Congress the authority lodged with it by the Constitution to coin money and regulate the value thereof by repealing all the laws delegating this authority to the executive. We will cooperate with other countries toward stabilization of currencies as soon as we can do so with due regard for our national interests and as soon as other nations have sufficient stability to justify such action.

### Foreign Affairs

We pledge ourselves to promote and maintain peace by all honorable means not leading to foreign alliances or political commitments.

Obedient to the traditional foreign policy of America and to the repeatedly expressed will of the American people, we pledge that America shall not become a member of the League of Nations nor of the World Court nor shall America take on any entangling alliances in foreign affairs.

We shall promote, as the best means of securing and maintaining peace by the pacific settlement of disputes, the great cause of international arbitration through the establishment of free, independent tribunals, which shall determine such disputes in accordance with law, equity and justice.

#### NATIONAL DEFENSE

We favor an army and navy, including air forces, adequate for our national defense.

We shall cooperate with other nations in the limitation of armaments and control of traffic in arms.

#### BILL OF RIGHTS

We pledge ourselves to preserve, protect and defend, against all intimidation and threat, freedom of religion, speech, press and radio; and the right of assembly and petition and immunity from unreasonable searches and seizures.

We offer the abiding security of a government of laws as against the autocratic perils of a government of men.

#### FURTHERMORE

- (1) We favor the construction of the Federal Government of head-water storage basins to prevent floods, subject to the approval of the legislative and executive branches of the government of the states whose lands are concerned.
- (2) We favor equal opportunity for our colored citizens. We pledge our protection of their economic status and personal safety.

We will do our best to further their employment in the gainfully occupied life of America, particularly in private industry, agriculture, emergency agencies and the civil service.

We condemn the present New Deal policies which would regiment and ultimately eliminate the colored citizen from the country's productive life, and make him solely a ward of the Federal Government.

- (3) To our Indian population we pledge every effort on the part of the national government to ameliorate living conditions for them.
- (4) We pledge continuation of the Republican policy of adequate compensation and care of veterans disabled in the service of our country and for their widows, orphans and dependents.
- (5) We shall use every effort to collect the war debt due us from foreign countries amounting to \$12,000,000,000—one-third of our national debt. No effort has been made by the present administration even to reopen negotiations.
- (6) We are opposed to legislation which discriminates against women in Federal and State employment.

### Conclusion

We assume the obligations and duties imposed upon government by modern conditions. We affirm our unalterable conviction that, in the future as in the past, the fate of the nation will depend, not so much on the wisdom and power of government, as on the character and virtue, self-reliance, industry and thrift of the people and on their willingness to meet the responsibilities essential to the preservation of a free society.

Finally, as our party affirmed in its first platform in 1856: "Believing that the spirit of our institutions as well as the Constitution of our country guarantees liberty of conscience and equality of rights among our citizens we oppose all legislation tending to impair them," and "we invite the affiliation and coöperation of the men of all parties, however differing from us in other respects, in support of the principles herein declared."

The acceptance of the nomination tendered by this convention carries with it, as a matter of private honor and public faith, an undertaking by each candidate to be true to the principles and program herein set forth.

# STATE DEMOCRATIC PLATFORM

Last year approximately 68 cents out of every dollar that was collected into the general fund of the State was appropriated to the public schools and to higher educational institutions. No State in the Union devotes to education such a large ratio of its tax receipts. This is the most convincing proof of the true emphasis that the Democratic party places on education.

The Democratic conduct of the State's affairs has always been economical, honest and efficient. Only five cents out of the State tax dollar goes for the payment of departmental expenses. Some States disburse a larger percentage than that for tax collection costs exclusively. In all the long years of Democratic control, no scandal has ever involved any State official. Perhaps this cannot be said of any other State.

#### Administration Praised

Particularly praiseworthy has been the conduct of the State's finances by the present Democratic administration under the leadership of Governor J. C. B. Ehringhaus. It has established a fiscal record which should be a source of pride to every North Carolinian and which is unequalled in the nation. Called upon to operate the State at a time of profound economic depression, it has met the grave problems with courage and wisdom.

It has steadily kept operating expenses within operating revenues.

It has financed the State without borrowing a single dollar.

It has met all of its bills punctually. Employes have been paid.

It has actually reduced the State's aggregate indebtedness by approximately \$24,000,000.

Today North Carolina's credit stands as high as that of any State in the Union.

All this has been achieved while land taxes were being steadily reduced and the State was assuming governmental costs formerly borne by the local communities.

When the General Assembly of 1933 convened, it found itself faced with a critical situation. The State had a large accumulated deficit and further borrowings were impossible. The school system was threatened with collapse. Land taxes were impossible of collection due to the profound prostration of agriculture resulting from the Republican panic.

The General Assembly wisely resolved that the essential services of the State government must be maintained at every cost and that the schools must be kept open.

The State in that emergency determined to assume the full financial responsibility for the operation of an eight months school term in every community in North Carolina. This meant relief to the cities and counties but added expense to the State government.

#### SALES TAX

For many weary weeks of thorough exploration and honest discussion, the General Assembly sought the added revenues required by this far-reaching policy. As a last resort and as a temporary expedient, it adopted the sales tax, devoted the entire proceeds of this levy to the schools.

The situation was saved. Not a single school in North Carolina has closed its doors. Not a single teacher has gone unpaid. Of no other State in the Union—save only Maryland—can that be said.

This desperate situation required a desperate remedy. The cure was effective.

The Democratic party is appreciative today as it had been for 40 years of the importance of the public schools and it takes pride in the fact that the school program as it has now been established is supported by the entire State without resorting to a tax on the homes and farms of our people.

The Democratic party appreciates the extraordinarily valuable services of its teachers. It rejoices in the fact that every teacher has been paid in lawful currency exactly what the State pledged itself to pay. It observes with gratification that the 1935 General Assembly was able to increase the salaries of all teachers.

# No Ad Valorem

The party renews its pledge to the people of the State to maintain an eight months' school term for every child, supported by dependable revenue, without resorting to an ad valorem tax on the land and homes of our people. It pledges itself to make a reasonable increase in a full school program, looking to the payment of all teachers of salaries in line with the vital importance of their services and looking also to the broadening of courses in vocational education and to an extension of the system of State-rented school books to a system of free school books as speedily as the State revenue will permit.

Economic improvement will now permit the immediate elimination of the sales tax levy on all necessities of life and on meals at boarding houses, and all public eating places and hotels. The Democratic party pledges itself to accomplish this at the 1937 session of the General Assembly.

Since the Democratic party pledges itself, to the fullest practicable participation in the social security program of the national administration, it cannot pledge itself to the complete elimination of the sales tax at this time, the schools must be maintained and improved. Money to finance old-age pensions and other features of the social security program must be found to the limits of the State's ability to do this. But the Democratic party bears strongly in mind the fact that the sales tax was adopted by the General Assembly only as an emergency measure. The Democratic party accepts this as a party pledge.

The Democratic party records with genuine pleasure the significant fact that the per capita property tax in North Carolina for all governmental purposes is lower than that of any state in the Union. This has been made possible by the fact that the State has assumed the complete responsibility for the construction and maintenance of highways and for the operation of the eight months' school term.

#### Taxes on Business

The Democratic party notes with equal gratification the fact that business is not escaping the proper share of governmental costs in North Carolina.

Only four other states of the Union levy a higher corporation franchise tax. Only one other state levies a higher corporation income tax. In aggregate corporate taxes, North Carolina is outranked only by one state.

The Democratic party does not apologize for these high corporate taxes. It regards them as necessary and just. At the same time, it recognizes the inescapable truth that industry must not be driven from the State or repelled at our borders by punitive taxes.

The Democrats of North Carolina have observed with pride the growing prestige of North Carolina's delegation in the National Congress and this convention hereby puts on record its warm appreciation of the services which the State's Senators and Representatives are rendering at Washington.

The democracy of North Carolina is in full and constant sympathy with the great objectives of the Roosevelt administration and with the principles that animate and direct them. We pledge ourselves to continuing coöperation with the President and the Congress.

Upon this plain record of progress and achievement the democracy of North Carolina in convention assembled hereby heartily endorses the National and State Democratic administrations. Since the beginning of recorded time there has been a struggle between entrenched wealth on the one side and the toiling masses on the other—between the reactionary and the liberal. Never were these lines more clearly drawn than at this hour. The Democratic party of North Carolina, therefore, cordially invites peoples of all creeds and of all party affiliations to enroll under the ample banner of equality of opportunity for rich and poor alike.

When the Democracy of North Carolina assembled in convention four years ago, the most devastating depression in the history of the republic was raging with increasing fury.

Millions of jobless men were tramping the streets of our cities in black despair. Agricultural products were selling at ruinous prices and farm mortgages were being foreclosed on a wholesale scale. Our foreign trade had languished to the point of almost virtual extinction. Thousands of factories were closed. A paralyzed retail trade was forcing hundreds of merchants each month into bankruptcy.

Republican leadership was utterly incapable of mastering the very conditions which long years of Republican misrule had created. It talked with counterfeit cheerfulness about imminent recovery while it toyed ineffectually with the grave problems. The situation grew steadily worse. Despair settled more deeply over the nation.

Today—four years later—the Democracy of North Carolina assembles in convention under happier circumstances. Where once there was only universal anxiety, now there is confidence. The depression has been conquered.

The army of the jobless is being demobilized into gainful employment. The wheels of industry now turn in profitable production. The banks of the nation are now in unprecedentedly sound condition. The farmer can now plant in the assurance that he will receive a fair price for his crop. The nation—the same nation that four years ago was overwhelmed with despondency—now smiles as it goes happily about the tasks of the day.

#### NOT RESULT OF CHANCE

This amazing change is not the result of chance. It is the natural and predestined consequence of a Democratic administration and of Democratic policies.

When the Democratic party was voted into power by the most decisive majority ever given any party since 1824, it was commissioned by the American people to do two specific tasks; to end the depression and to make such reforms in the economic order as would render a repetition of the panic most remote.

In the person of Franklin Delano Roosevelt the Democratic party found the leader which the nation sought. He had the vision, the courage and the elevated and practical conception on governmental responsibility for which the grave situation called.

When his firm hands settled upon the reins of Presidential power, change quickly manifested itself. He did not trust to Pollyanna assurances that all would be well in the fullness of time. Facing the facts realistically, he set the mighty machinery of the Federal Government to work in ending the depression. His intelligent understanding conceived remedies which his indomitable energy and fearlessness quickly and effectively applied.

Where there was once only futile fumbling, now there was constructive action. The banks of the country were speedily and effectively restored to impregnable soundness. Additional employment was created by the effective device of shortening hours while wages which were being remorselessly driven down to starvation levels were started on a definite and irresistible upward surge. The full resources of the nation were employed in reviving a tragically prostrated agriculture. To those in want was given the promise that they would be fed and housed and clothed—a promise that has been scrupulously kept. Industry was primed with a far-reaching

public works program which provided needed public improvement while creating employment for the jobless and an immediate demand for durable goods.

#### Business Improves

The happy result is that while business profits declined 75 per cent under President Hoover, they have risen 100 per cent under President Roosevelt. The nation has been pulled out of the abyss of the depression and is now traveling irresistibly toward abounding prosperity.

It was not enough to end this depression. A recurrence must be prevented. Man-made conditions produced the panic. These causative conditions had to be changed.

Under the Democratic administration reform has marched with recovery. Legislation of far-reaching character has been enacted to protect human rights, to provide social security for the aged and jobless, to safeguard small investors and depositors, to prevent perilous speculation and to insure a fairer distribution of the fruits of industry. While legitimate and useful business has been accorded every proper encouragement, the welfare of the individual has been exalted above private profits. In no similar period of American history has so much legislation of such beneficial import to the average man been passed.

All this has been achieved without impairing or straining the national credit. The government has been able to refinance its outstanding indebtedness incurred during the World War at heavy interest savings and its lowest yield bonds are selling at a premium. The national debt has been increased in the same percentage as the national wealth has risen during the Roosevelt administration. Today the United States owes less in proportion to its national assets than it did when Herbert Hoover left the White House.

#### STATE RECORD

Proud as it is of its party's record in the conduct of the nation's affairs, the Democracy of North Carolina is equally proud of its record in the administration of the State's affairs.

When the Democratic party under the inspired leadership of the immortal Aycock rescued the State from Republican rule, North Carolina stood low among the states of the South in economic, educational and social advancement.

All this has been changed. Today North Carolina is in fact and in truth the empire State of the Southeast. Today it ranks first among the Southeastern states in the value of agricultural crops, in the value of manufactured products and in retail store sales. Great as has been its economic progress, still more marked has been its social and educational progress.

These truly miraculous changes are not the casual consequences of chance. They are the natural results of the far-sighted, prudent, efficient and social-minded administration which the Democratic party has given to the State's affairs.

The Democratic party has not been content to rule the State. It has been more interested in developing the State and in promoting the well-being of all of its people.

It has always recognized that the primary obligation of every State is to conserve and to develop human values. Cradled in the principles of Thomas Jefferson, it was held steadfastly to the fundamental Democratic creed of equal rights to all and special privileges to none.

The business of North Carolina is agriculture. Thousands of our citizens are dependent upon farming for their livelihood. For agriculture the Democratic party has always had a sympathetic and helpful interest. Through appropriate legislative action and departmental direction, the State has sought in every way to promote agricultural progress. It is not without significance that North Carolina outranks every State in the Southeast in the value of its farm products—a progress that has come only with Democratic control and assistance.

The Democratic party is keenly sensible of the fact that despite all of this advancement, the farmer still does not command his proper share of the nation's prosperity. The Democracy of North Carolina pledges itself that it will exert all appropriate coöperation that gives reasonable promise of promoting the economic well-being of the rural population of North Carolina.

#### COMPACTS FAVORED

We favor State and interstate control of crop production through compact legislation in order to assure parity prices to farmers for their products. In this connection a word as to the highway system is in order. The State of North Carolina, with the aid of the Federal Government, has built a magnificent system of highways at a cost of more than two hundred million dollars. This is the State's largest investment. The Democratic party recognizes the responsibility of adequate maintenance of these highways and of progressive improvement of local roads serving our rural communities. Highway funds should be so conserved and expended as to promote these objectives. The rapidly increasing gasoline taxes justify a further reduction in automobile license taxes by the next General Assembly.

#### Labor Plank

In these days of a highly industrialized civilization, no state can hope to become prosperous unless it has lawful and just encouragement for legitimate industry. Manufacturing enterprises are necessary to afford employment, to create a local market for farm produce, and to provide tax support for government.

The Democratic party has been fully appreciative of the policy of the frank recognition of the rights of labor to organize and bargain collectively through representatives of their own choosing, as advocated by President Roosevelt, and the policy of a broader distribution of employment as a means to a satisfactory and sustaining progress of industrial development and a more wholesome industrial life in this State.

We oppose any and all forms of intimidation and coercion against either worker or employer and urge the enactment of State and interstate laws to promote the betterment of working conditions, wherever such compacts are practicable, and the passage of humanitarian laws, wherever practicable, to afford further protection to women and children in regard to maximum hours and working conditions.

The wisdom of the Democratic policy is established by the industrial progress of the State which has come with the successive Democratic administrations and which is the marvel of the nation.

# STATE SCHOOLS

When the Democratic party under the leadership of Aycock committed itself to the fullest extension of the principle of universal education, the real impetus to North Carolina's growth was given.

Then a building program was launched which commanded the admiration of the nation and which in time brought schools to every section, however, isolated, in North Carolina. School terms were gradually lengthened, the type of instruction was improved, compulsory education was adopted. In 1931 the State assumed the responsibility for the operation of a six months' term of school. In 1933 the State lengthened the school term for which it is responsible to eight months.

# STATE REPUBLICAN PLATFORM

The 1936 platform for the North Carolina Republican Party, as presented to the convention by the platform committee for consideration, follows:

The Republican party of North Carolina, in convention duly assembled at Raleigh, March 24, 1936, declares the following principles and purposes as those upon which it proposes to go before the people of the State in the next general election with the unqualified pledge that if entrusted with power it will enact the necessary laws and administer the affairs of the State in such manner as to effectuate these ends.

#### NATIONAL ISSUES

We reaffirm our allegiance to the time honored and progressive principles of the Republican party of the Nation and demand:

- (1) That governmental expenditures be drastically reduced; the national budget balanced; the national credit maintained, and the currency be stabilized.
- (2) That punitive and confiscatory tax law which now harass business, retard recovery and promote wasteful and reckless expenditures be repealed.
- (3) We thereby condemn the efforts of the present administration to restrict and destroy agricultural production, to regiment industrial groups, to curtail personal liberty, to destroy free speech and to close the courts of the local community to aggrieved persons by unlawful and unconstitutional enactments.
- (4) That the courts of the United States shall continue to exist as a free, independent and separate branch of our national government as designed by our forefathers in the Constitution of the country and that their functions shall remain free from political or other partisan considerations, both in the appointment of the judges and the exercise of their proper jurisdiction and to the end that the humblest in our land may be secure in their personal rights, opportunities, property, liberty and the pursuit of happiness.
- (5) That all unnecessary bureaus, commissions and governmental agencies designed to dictate, control and supplant business and other enterprises and engaged in reckless and wasteful expenditures of the people's money shall be abolished.

(6) That local and State responsibility for relief and the administration of relief funds shall be recognized; the partisan and wasteful methods now in common use shall be abandoned; the horde of unnecessary highly paid officials shall be removed from office and that a system of non-partisan, efficient and local administration of all relief activities be submitted for the present expensive, extravagant and partisan set-up.

#### EDUCATION

We demand that the educational system of North Carolina, both in the higher and lower branches, be removed absolutely from the fields of politics. That the professors, teachers and instructors in the local schools, colleges and university of the State shall be selected solely upon merit. That all unnecessary expenses connected with the general administration of the educational system of the State be eliminated and that the pay of teachers and others actually engaged in instruction of pupils be increased as rapidly as the resources of the State Treasury will permit and until the same is adequate, and to that end we further demand that a special salary fund be allocated by the Legislature to be used exclusively for payment of public school teachers' salary. That an efficient system of promotion of teachers be adopted in order that those best qualified and rendering best services in the way of instruction shall be rewarded for their superior qualifications. That the system of transportation by means of buses be safeguarded and improved in every possible way regardless of some extra cost and that free uniform textbooks be furnished all public school children.

#### ELECTION

Honest election laws, honestly and fairly administered, are absolutely necessary for the preservation of free government. We demand that the minority party be given equal representation in every precinct by the appointment of a registrar for each political party. Frequent revision of the list of registered voters, fair representation of the minority party upon all returning boards, repeal of the absentee voters' law, removal of the compulsory features of the primary law and provision for each party to pay for such primary elections as its duly constituted authorities demand.

#### LAW ENFORCEMENT

We condemn the action of the legislative branch of the State Government for the passage of so-called liquor control laws for several counties of the State. We demand strict, impartial and effective enforcement of the prohibition laws of the State.

We demand that all the original laws of the State of North Carolina shall be enforced. That society shall receive protection to the utmost degree from that element among us inclined by criminal, dishonest and corrupt methods to prey upon the law abiding people of our State. That adequate sentences be imposed on all persons convicted of crime to prevent repetition that this undesirable class be brought to realize crime does not pay in this State. That adequate provisions be made for the reformation, segregation and rehabilitation in proper cases in a scientific and humane way of those punished for crime and confined in penal institutions of the State. That the labor of all prisoners be restricted as far as possible from competition with free labor and that all prisoners be employed regularly in the development and improvement of public highways and other enterprises beneficial to the people generally.

### HIGHWAYS

We deplore the reckless manner in which the expensive highway system of the State is being destroyed by being subjected to excessive loads of commercial products transported at excessive and unlawful speed to the great danger and expense of the public, for the repairs of the highways subjected to this use and abuse they were never designed to endure and to the profit of private individuals.

# CAPITAL AND LABOR

We believe that capital is entitled to just return on investments. That labor is worthy of a hire commensurate with our American standards of living and sufficient to maintain the dignity and honor of all labor whether performed in factory or on farm, and that the right to organize and bargain, collectively and as an individual, shall not be denied to any citizen who toils.

We demand the enactment by the State of North Carolina of an old-age pension law setting up a system of protection for the indigent, aged and infirm to apply equally to all of such citizens regardless of the vocation followed by such citizens during the productive period of life.

#### TAXES

We demand that all useless offices and agencies existing in the State be abolished. That a rigid and effective policy of economy be inaugurated, that the amount of expensive salaries be reduced to a minimum, that local self-government be reëstablished in the several counties of the State and local business of the communities be transacted without bothersome State Department interferences. We demand that savings thus effected and otherwise possible be used in the first instance to abolish the general sales and other nuisance taxes, that the tax on automobile license plates be reduced to a maximum amount of \$4.00 per year on the highest cars and that the burden of taxation generally shall be removed from the long suffering taxpayers to the greatest extent possible without destroying the efficiency and effectiveness of our State, educational, charitable and other institutions.

#### CIVIL SERVICE

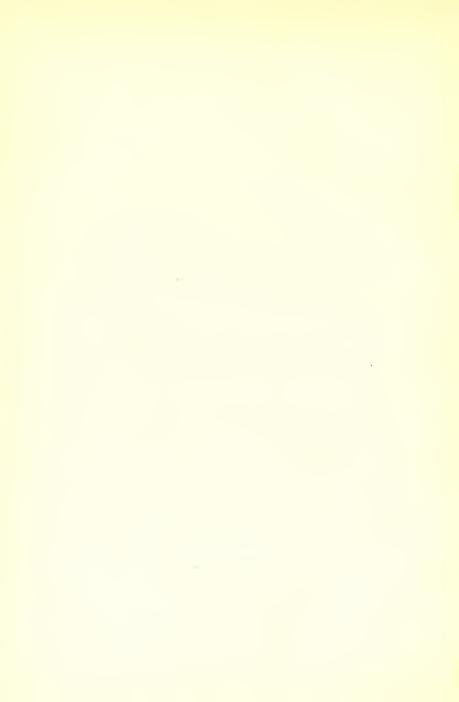

If elected to power we pledge the Republican party to place all employes of the State, including public school teachers, except laborers and those holding executive positions, in the classified civil service. This will not only make for efficiency and reduce cost of government, but it will free State employes from the baleful influence of professional politicians.
